

KX-TPA68 CORDLESS DESK PHONE

- 3.5" colour LCD
- 18 Flexible Function Keys with Self Label
- Full Duplex Speaker Phone
- High Definition Audio (G.722)
- Easy Installation Without Wired LAN
- Up to 500 Phone Book Addresses

MODERN AND ELEGANT

Introducing Panasonic's new cordless communication terminal for the KX-TGP600G system. The new KX-TPA68 is a desktop phone that features a large colour LCD screen, integrates high definition audio, and provides an enhanced user interface.

This new model includes 18 self-labeling flexible function keys (arranged as 3 pages of 6 keys). The key labels include icons that indicate line status.

The KX-TPA68 features superior sound quality over the previous model with a full duplex speaker phone and 4 dB higher voice volume. Additionally, the noise reduction feature, which automatically adjusts the received audio volume in noisy environments, has been improved.

The KX-TPA68 desktop DECT phone can work alongside any combination of up to seven additional Panasonic cordless or desktop DECT phones on the KX-TGP600G system.*

*The KX-TGP600G supports up to a total of 8 phones and is compatible with the following phone models: KX-TPA60, KX-TPA65, KX-TPA68, KX-UOT121 or KX-UOT131.
