UC Pro 2 expand your business

UC Pro 2

Communicate from anywhere, with multi-device flexibility

Get connected easily, anytime you want

Quickly & accurately text chat with any members

Business communication is undergoing rapid change today. UC Pro 2 allows easy, intuitive use of various forms of communication, like high-speed, precise information transmission and seamless, multi-device connection. However, business communication systems need to do more than just increase work efficiency, they must also be easily integrated into existing systems and must help to lower costs across the table. Because of UC Pro 2's excellent compatibility with Panasonic PBXs, the application offers strong support for virtually any kind of business.

Providing Solutions with UC Pro 2

PC

Fast, Efficient Work Tool

Panasonic UC Pro 2 provides a host of collaborative functions, including large-capacity call functions, unified messaging, presence, and shared directories. The application is designed to use Windows clients as the main interface.

UC Pro 2 provides a wide range of solutions to users and businesses, for small, medium and large-scale enterprises. It is a highly efficient tool for multi-tenant companies.

You can also check the presence of UC Pro 2 users on Windows PCs even if they haven't installed UC Pro 2, and chat with them as well. This supports closer in-company communication for your business.
