

Panasonic

i-PRO AI X-Series Cameras

Harnessing the Power of
Artificial Intelligence

i-PRO

i-PRO X-Series AI cameras are available in outdoor or indoor and bullet or dome form factor. With 5MP and 4K resolution, get the highest quality image reproduction.

These cameras have an advanced AI engine with onboard analytics to detect changes in scenes, automatically adjust the image settings of the scene being analyzed, and optimize video compression to conserve network bandwidth and server storage capabilities.

Pre-loaded with three AI plug-ins, experience the power of i-PRO Artificial Intelligence!

To request a unit please fill out the i-PRO camera application form [here](#) or visit this link <https://na.panasonic.com/ca/complimentary-i-pro-x-series-cameras>

Important Information

- The seed unit lead time is 1-4 weeks
- A customer qualification process is required prior to approval
- Following seed unit placement, a Panasonic representative will follow up
- A post-experience survey will be sent via email
