Panasonic

iA H.265 360-degree Indoor Dome Camera

Panasonic WV-X4171 captures the highest quality images in even very challenging and dynamic environments. In particular, the image of the person's face or object at the edge of the fisheye is clear with less distortion.

Intelligent Auto (iA) monitors scene dynamics and motion to adjust key camera settings automatically in real-time reducing distortion such as motion blur on moving objects. Adopting H.265 Smart Coding technology, bandwidth efficiency is intelligently increased for longer recording and less storage. Out of the box, the camera supports full data encryption streaming and is compliant to FIPS 140-2 Level 1 standards to keep your video secured.

Extreme image quality for evidence capturing under challenging conditions

- Clear and less distorted image of the person's face and objects at the edge of the fisheye
- Instant response to sudden light changes like tunnel entry and exit
- Auto Shutter speed control for fast moving objects
- Super Dynamic 108dB for backlit situations and shadows on night streets

Extreme H.265 compression with new Smart Coding

- Longer recording and less storage space compared to any H.264 based compression techniques
- New self-learning ROI* encoding (Auto VIQS) dynamically detects motion areas to keep vehicles and humans in good picture quality while lowering your bandwidth *Region of Interest

Extreme Data Security

- Full encryption SD card edge recording to keep your data safe
- FIPS 140-2 Level 1 compliant
- Full end-to-end system encryption with supported VMS and devices to protect from IP snooping/spoofing and detect data alteration

Complete with powerful analytics built-in*

- Heat map: Visualization of people's traffic pattern and staying times
- People Counting: Statistics data on the number of people entering and leaving a specific zone
- MOR (Moving Object Remover): Monitoring of only the surrounding environment by removing people and other moving objects from video *To enable analytics, please add the optional WV-SAE200 software.

Key Features

- 9 Megapixel fisheye images up to 30 fps
- iA (intelligent Auto)
- Super Dynamic 108dB
- H.265 Smart Coding
- FIPS 140-2 Level 1 compliant

Applications

- Transportation (Airport / Subway station)
- Logistics / Factory
- Education / Hospital
- Retail / Bank
- Building

^{*2} When "On" is selected for "Super Dynamic(SD)", the frame rate is restricted to a maximum of 15fps.

^{*3} Auto VIQS, i-VMD, can not be used at the same time

^{*4} Transmission for 2 streams can be individually set.

Main body : ABS resin, Sail white *5 Only use AAC-LC (Advanced Audio Coding - Low Complexity) when recording audio on an SD memory card. *6 The audio output can be switched to the monitor output. Refer to the Operating Instructions on the provided

CD-ROM for descriptions of how to switch the output. (factory shipment: NTSC monitor)
