

## S-Series Seed Program

Learn why the S-Series is the  
new standard in security

**i-PRO**

Panasonic i-PRO is excited to announce the introduction of artificial intelligence (AI) to our mainstream lineup – the S-Series.

Our new AI-enabled S-Series cameras include:

### AI Video Motion Detection (AI-VMD)

This plug-in detects intruders, loitering, cross line, and directional movement - never have your security team respond to false alarms again!

### AI People Search

This plug-in helps find people of interest faster by searching for attributes such as individuals not wearing masks in a specific time frame.

To request a unit please fill out the i-PRO camera application form **here** or visit this link  
<https://na.panasonic.com/ca/complimentary-i-pro-s-series-cameras>

## Important Information

- The seed unit lead time is 1-4 weeks
- A customer qualification process is required prior to approval
- Following seed unit placement, a Panasonic representative will follow up
- A post-experience survey will be sent via email

Contact us to learn more about available applications at **CCTV@ca.panasonic.com**
